PROFESSIONAL SUMMARY

Communications and operations professional with experience across live-service game publishing, community leadership, content workflows, process documentation, and cross-functional delivery. Combines player-facing writing and Discord community management with the operational discipline to organize information, coordinate approvals and handoffs, and build practical systems as teams grow.

COMMUNITY LEADERSHIP

BlightFall

Remote

Community Management Lead (Volunteer Game Community)

June 2026 - Present

- Lead Discord structure, permissions, automation, announcements, moderation, escalation handling, events, and member support for a 1,450-member pre-launch Roblox game community.
- Help maintain an organized, responsive community as membership increased from 484 on June 26 to 1,450 by August 12; review dozens of daily suggestions, answer questions, update the FAQ, and relay recurring feedback to developers.
- Planned and moderated two live developer Stages; the latest ran for roughly three hours with approximately 70 peak attendees, including speaker management, question visibility, chat moderation, and real-time feedback.
- Designed the project logo and helped shape public wording and community brand presentation, including an announcement-channel brand-colour poll that prompted active discussion.

Warframe Clan Communities

Remote

Founder and Community Administrator (Volunteer)

Approx. 2019 - 2021

- Founded and configured two Warframe clan Discord communities that grew to approximately 300-400 members each within a larger clan alliance community of roughly 1,600 members at peak.
- Built channel, role, permission, and bot systems; moderated member issues; supported events and engagement; and completed planned handoffs to successor owners by January 2021.

PROFESSIONAL EXPERIENCE

Digital Extremes

Remote, ON

Content Marketing Coordinator

May 2025 - August 2025

- Wrote, edited, published, and adapted player-facing Warframe content across web, social, and in-product channels for announcements, events, collaborations, and live-service updates.
- Coordinated editorial schedules, approvals, revisions, localization, and asset delivery across marketing, design, development, and global teams.
- Developed the planning document and original interview questions for the Warframe TennoCon 2025 video segment and supported filming with Warframe: 1999 voice actors and internal production staff.
- Captured and edited short-form gameplay footage and visual assets for social content, adapting materials for different platforms and campaign needs.
- Created a shared Excel workload tracker alongside Jira to improve visibility into assignments, edit readiness, and approvals; introduced it to team members for shared use during the internship.

Xodus Travel Services Inc.

Remote, ON

Billing Specialist

April 2026 - Present

- Coordinate recurring payment workflows through validation, approval, escalation, and completion while maintaining accurate records and daily bank deadlines.
- Investigate payment discrepancies and exception items with claims, cost containment, finance, and operations stakeholders while keeping supporting records and next actions aligned.
- Create detailed SOPs by consolidating screen-share training, working notes, and fragmented references into repeatable procedures for a newly established role.
- Communicate blockers and exceptions across internal teams, maintain visible next actions, and support reliable follow-through.

PROFESSIONAL EXPERIENCE (CONTINUED)

Toronto Police Service	Toronto, ON
<i>HR Communications Student</i>	<i>January 2025 - April 2025</i>
- Created employee-facing materials, newsletters, onboarding resources, and feedback tools to improve internal information access and communication clarity. - Audited HR communications infrastructure and synthesized findings into a formal report for board-level leadership, including process and resource recommendations.	

Manulife	Waterloo/Toronto, ON
<i>National Education Specialist</i>	<i>January 2023 - August 2023</i>
- Managed CRM-based client communication workflows and created targeted retirement-education materials for different client audiences. - Connected CRM, Excel, and Power BI data using native Microsoft integrations to reduce manual dashboard-update work. - Delivered live training sessions and webinars, created supporting guides, and trained incoming staff before handoff to the steady-state team.
